REFLECTIONS ON ACTIVE BLENDED LEARNING: BRIDGING HIGHER EDUCATION AND INDUSTRY

DR. SRI-KARTINI LEET

HEAD OF SCHOOL: ART, DESIGN & PERFORMANCE

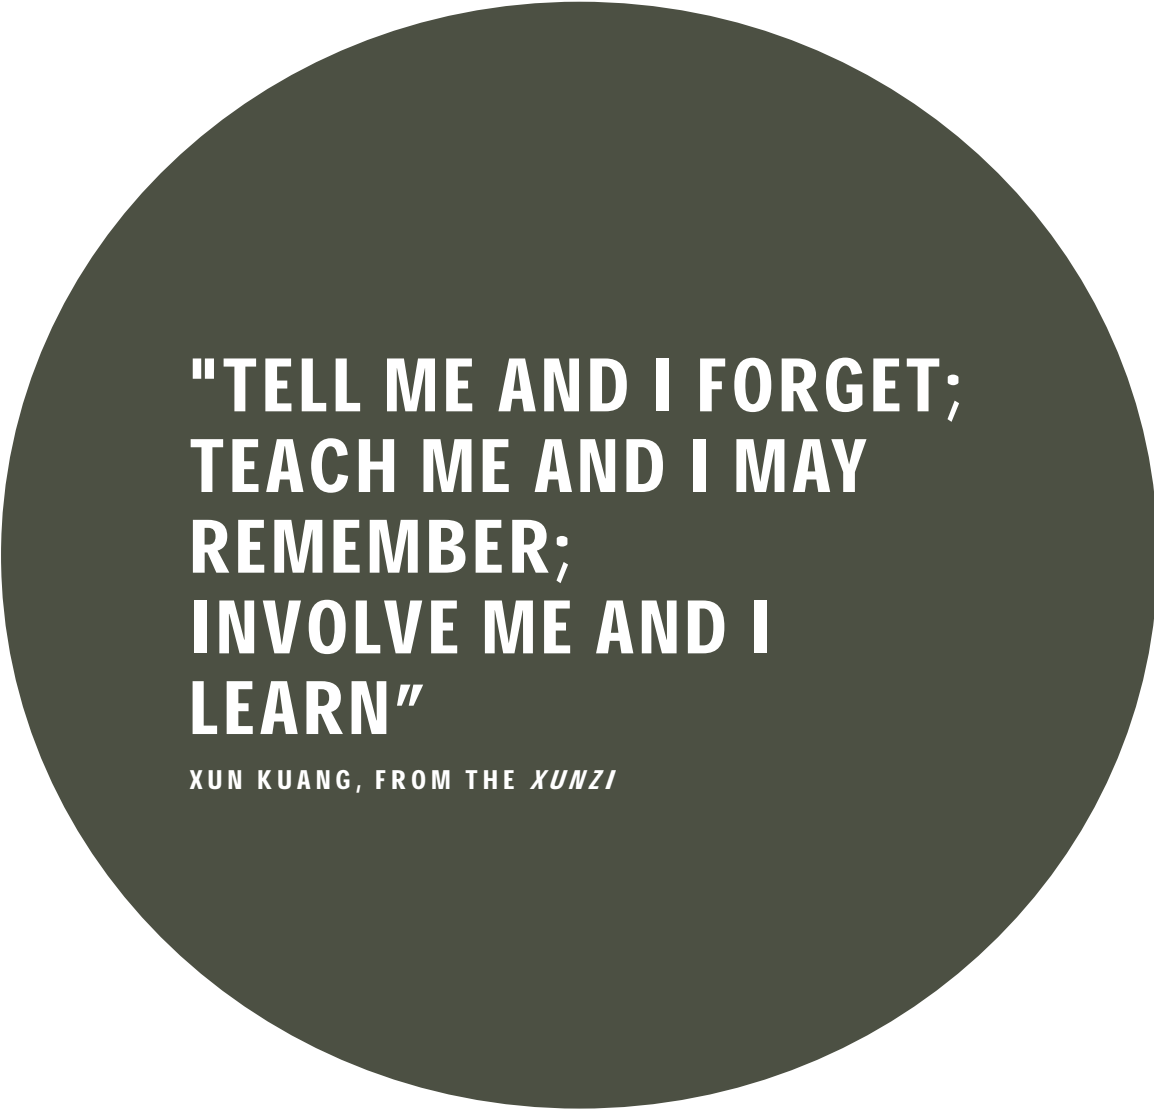

BUCKINGHAMSHIRE NEW UNIVERSITY

ACTIVE BLENDED LEARNING: UON BEGINNINGS

- Interpretations of blended learning
 - Online activity is central to delivery, alongside face-to-face experience
 - ‘Learner-centred’ approach
 - Students are actively engaged in prep and contribution to learning (participative learning)
 - Emphasis on ‘active’
- 

WHAT WORKS? BUILDING STUDENT ENGAGEMENT AND BELONGING IN HE AT A TIME OF CHANGE, 2012

- Sense of belonging
- Enabling full integration with studies
- Engage with wider studies
- Identity: feeling valued/encouraged/included
- Making friends
- Working outside their discipline (**networks are key**)
- Designing for learning (assessments/engagement/delivery)
- Skills to succeed beyond University, and going beyond expectations

TEACH ME AND I MAY
REMEMBER;
INVOLVE ME AND I
LEARN"

XUN KUANG, FROM THE *XUNZI*

QAA Art & Design Subject benchmark statement
2017:

- Commercial Awareness
- IP
- Co-creation (networks of exchange)

Students on Graphic Design and Illustration worked together with Computing students and the Community Safety & Wellbeing Team on the Safe Places scheme for Buckinghamshire County Council, funded by HEFCE and the HLF. Students worked in cross-disciplinary teams to design and build: 1) a location-sensitive “Heritage Trail App” to aid interpretation of town centre sites relating to the First World War and (2) a web-based service to support businesses offering premises as safe havens for vulnerable members of the local community.

This project was also presented by two participating Graphics students at the 2018 UUK-HEA conference, on the value of cross-disciplinary team-based learning to student experience, engagement and to employability.

WORK-RELATED LEARNING THROUGH INDUSTRY COLLABORATION

Work-related learning activities can be grouped into three main clusters:

- enhancing employability and enterprise
- giving individuals opportunities to develop specific work-relevant skills
- providing support and help to facilitate or improve the quality of work-related learning for the participants

...applied through:

- Live industry briefs
- Work placements and internships
- Presentation and communication skills development; professional skills
- Industry mentoring
- Industry feedback as part of assessment and feedback process
- Reflection of work-related learning experiences

INDUSTRY COLLABORATIONS

Creative Advertising

- **British Gas project** - in conjunction with British Gas and their digital agency Waste, ran a live brief project promoting Carbon Monoxide testers to students with us. Helen Giles won the internship.
- **The Home Office project** – annual project (this has run for the last 3 years) from The Home Office and their ad agency Kindred – addressing social issues such as modern day slavery and viewing underage pornography.

Dear Jeremy
Thank you for having Nick Hallberg + Dave Colman
on placement at PKYR in 2008
We'd just like to ask you a few questions about their performance. Was your placement team: [please tick the box of your choice]

a.	hardworking					hard work
b.	first in, last out					never there
c.	you'd employ them tomorrow					get them out of here
d.	out-going					church mice
e.	eager beavers					lazy sloths
f.	creative					pedestrian
g.	presentable					need a makeover
h.	ready to listen and learn					know it all
i.	articulate					what?

General comments: Excellent team - we were very impressed with how we extended their placement by another two weeks. They picked up and ran with everything that we threw at them and they were a pleasure to work with. They should do well in the future.

And finally how do you rate their performance out of 10?
Please post the card back to us.
Thanks very much - Julie and Phil

National
Trust

TEXTILE DESIGN: COLLIDING TIMES – A COLLABORATIVE PROJECT WITH THE NATIONAL TRUST, OSTERLEY PARK AND HOUSE

Please choose one of the following rooms at Osterley Park House as a starting point for your own visual research:

1: Drawing Room

2: Tapestry Room

3: State Bedroom

4: Etruscan Room

Please choose one of the following themes to combine with your Osterley Park House theme:

1: Digital

2: Futuristic

3: Punk

4: Psychedelic

Using your two theme we'd like you to gather a range of primary and secondary sources to begin drawing from. Make sure you have plenty to work from.

- Please think broadly about what your title/theme could mean.
- What was happening during that time?
- What was being invented?
- What was happening socially?
- What was happening economically? (booms/crashes etc.)

You may find this list useful to expand your chosen theme further:

- Literature, communication, food, toys, packaging, film, artistic movements, dance, performance, music, typography, philosophy, materials and fashion.

Begin by generating a range of varied drawings/manipulations/marks and textures. Experiment with scale, colour, pattern, structure, materials, flow and quality of finish.

- It is important that your range shows variety and originality as this is a very competitive market.
- Use your drawings/manipulations/marks and textures to create a range of development samples - at least 15. Remember to create a range of motifs/surface/structures as you will need variety to then expand upon.

Expand and develop your samples to create an innovative yet commercial collection/range designed with your chosen brands in mind. Create a layout known as “range plan” to show how your designs will complement each other. This can be done through CAD.

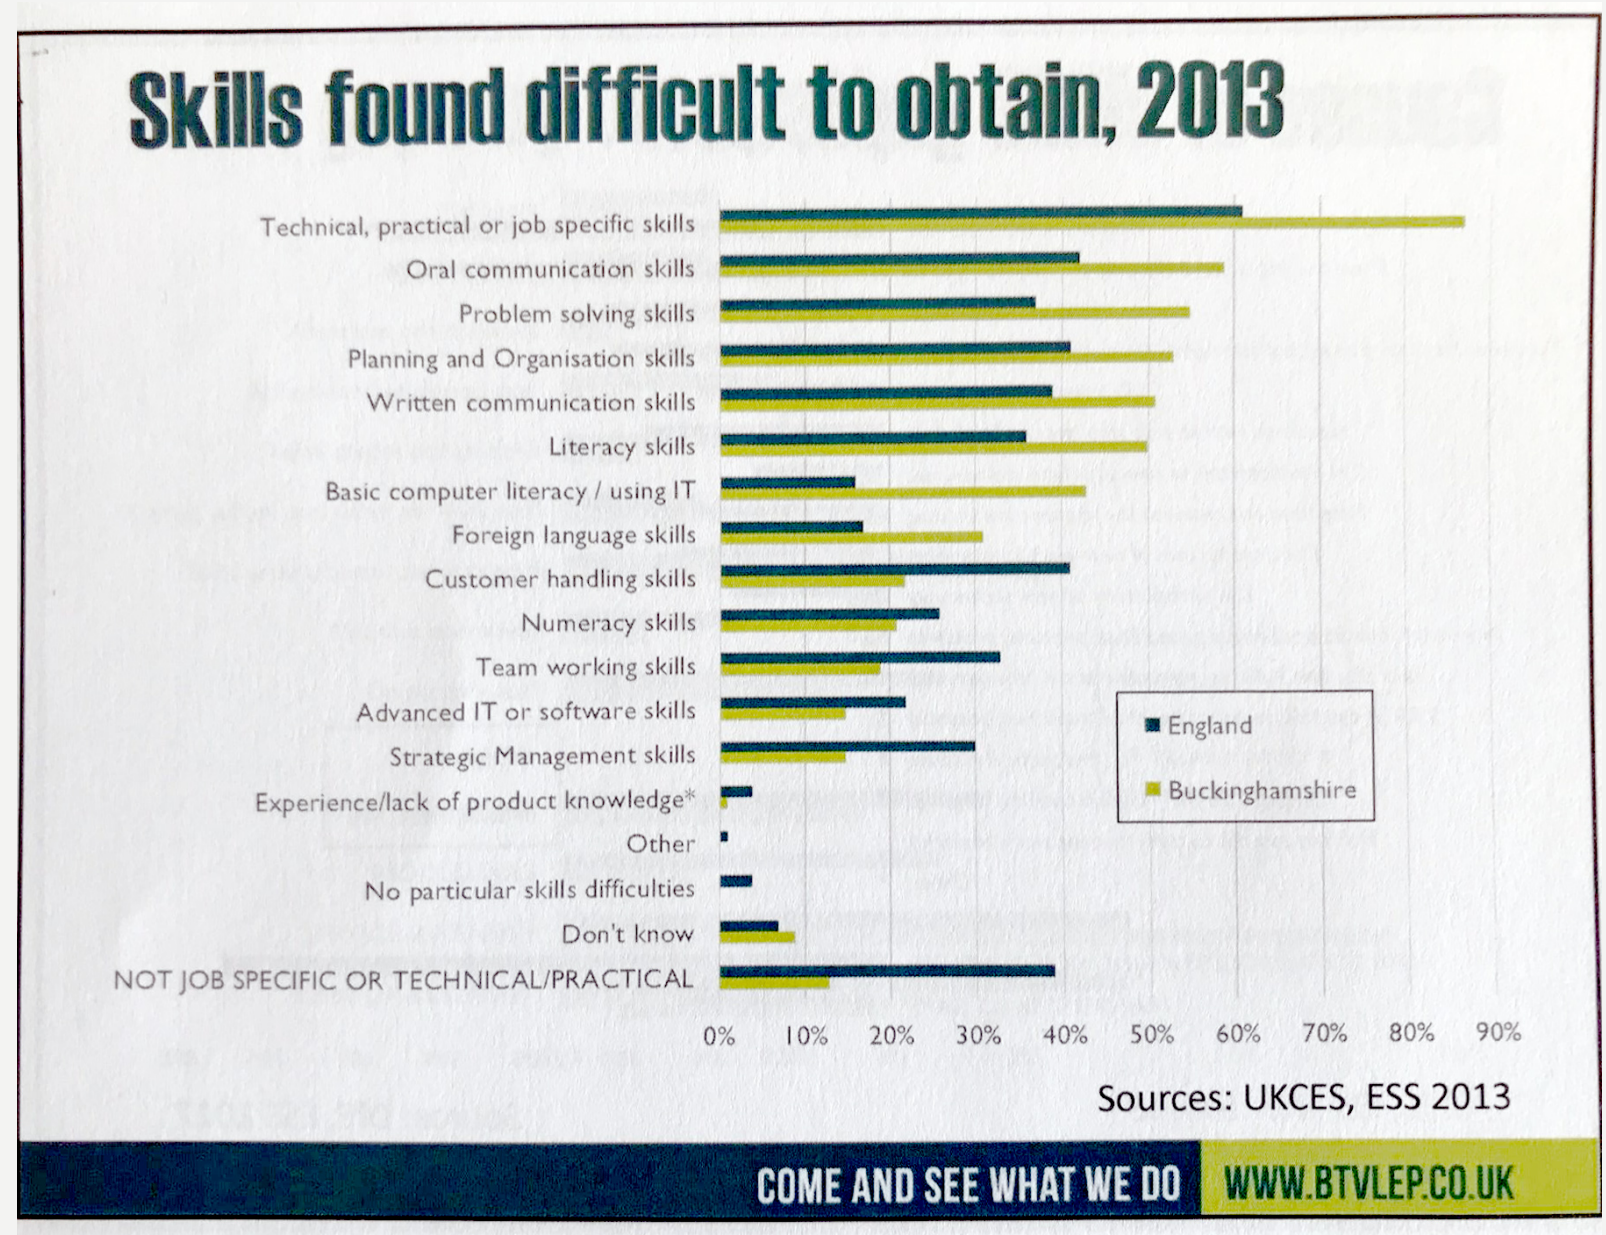

- Your range should consist of at least 6 final samples/prototypes; these should be at least A3 size.

Style and visualise your range, you may want to photograph your range in a particular location or create visualisations in Photoshop/Illustrator.

- These visualisations could also be hand (rendered), or a combination of both digital and hand.
- If you are photographing your samples, think about the setting of your chosen location, is it in keeping with your range/theme? Will you need props? Remember your visualisations should be about your product so be careful not to distract from the range.
- Do you need soft or hard lighting? Natural or artificial light? How will you angle and place your products, will you need small plinths?
- Look at how other companies/designers present their ranges, lay out your range and mount work onto white (cartridge paper- print) (Light weight card- knit and surface) ready for the assessed presentation.

INDUSTRY PARTNERSHIPS - OPPORTUNITIES AND CHALLENGES

CRITICALLY INFORMED PRACTITIONERS

- Practice-theory relationship
- Research as practice
- Understanding of critical and historical contexts
- Reflection and critical evaluation of practice, including skills awareness and learning context (impact; collaboration)
- Involves analysis, links to the underlying professional knowledge base, drawing out learning or new knowledge from the experience

RESEARCH BLOG (GALLERY VISIT)

Brief

- You need to produce **two (2) blog posts**, in effect, **two (2) portraits**.
- **Each of your portraits should be inspired by one exhibit that you will identify in the exhibition, and will also correspond to ideas and concepts taught in the following two lectures:**
- Lecture 4. Identity issues; Lecture 5. Sex, Gender and sexuality

Activity 1 – in your own time and before your visit to the gallery

- Have in mind that for each one of the two portraits you need to select one or more key ideas/concepts or theories that links to your character, and has been discussed in the above lectures.
- Take some time to review the lecture slides and texts we analysed at seminars.
- Keep notes of some key words that relate to concepts and theories that you find most interesting and could fit well with your -for now- imagined character. Take your notes with you at the gallery.

Activity 2 – in the gallery

- First just take some time to simply enjoy all the exhibits in the display; then select two exhibits that attract your interest in some way.
- Take a photo of each.
- Have in mind that you will use the picture to document and reference your source of inspiration (i.e the exhibit).
- Then, start thinking which are the elements of the exhibit that you would like to incorporate in your character.
- Now use your sketch book and pencils to produce a portrait image of the character done in a manner which somehow embodies the key concepts or theory(ies) explained in the corresponding lectures and elements of the exhibit of your choice. You might want to use some elements of your chosen exhibit or the exhibit as a whole. This is up to you.
- Use any media you like. In doing so, you will be aiming to produce a link between your practice and theory.
- You have total independence on how you approach the portrait. It could be crude, or highly finished, a caricature, humorous; whatever you want; however, it should somehow point to theoretical ideas and concepts of the two lectures.
